
India AI Impact Summit 2026

16–21 February 2026 | New Delhi

LTSCCT participated in the **India AI Impact Summit 2026**, reinforcing its commitment to advancing India's AI ecosystem and contributing to high-impact discussions shaping the nation's technological future. The summit brought together leaders from government, industry, academia, and research institutions to deliberate on responsible and equitable AI development, governance, sustainability, cross-border collaboration, and frontier technologies, including AI and quantum computing. The event also aligned with national priorities such as the **IndiaAI Mission** and the **National Quantum Mission**.
