

3rd Annual SemiX IIT Bombay Summit 2025

25–26 September 2025 | Indian Institute of Technology Bombay, Mumbai, India | Industry Participation

LTSCCT participated in the **3rd Annual SemiX IIT Bombay Summit 2025**, a leading semiconductor forum that brought together more than 300 stakeholders from industry, academia, government, and startups to discuss the future of India's semiconductor ecosystem. The summit served as a collaborative platform for advancing innovation, talent development, research excellence, and entrepreneurship across the semiconductor value chain.

Over two days, participants engaged in discussions on key technology domains including AI computing, memory technologies, power devices, communications, sensing, and advanced packaging, highlighting the opportunities and challenges shaping the next phase of semiconductor growth in India.

Highlights

Plenary Panel Discussion

Speaker: Sanjay Gupta, Chief Development Officer & Global Head of Engineering, LTSCCT

Topic: *Advancing India's Semiconductor Ecosystem*
