

CII Conference on Advancing Atmanirbharta in Semiconductor Design & Manufacturing: India's Journey Toward a Self-Reliant Semiconductor Ecosystem

New Delhi, India

L&T Semiconductor Technologies (LTSCCT) participated in the **CII Conference on Advancing Atmanirbharta in Semiconductor Design & Manufacturing: India's Journey Toward a Self-Reliant Semiconductor Ecosystem**, held at Le Meridien, New Delhi. The conference convened key stakeholders from across the semiconductor ecosystem to discuss strategies for strengthening India's semiconductor capabilities across design, manufacturing, policy, infrastructure, and global collaboration.

Representing LTSCCT, **Dr. Sandeep Kumar, Chief Executive**, addressed the inaugural session, sharing insights on India's semiconductor landscape and the importance of innovation, ecosystem partnerships, and indigenous technology development in accelerating the nation's journey toward semiconductor self-reliance.

Highlights

Speaker: Dr. Sandeep Kumar, Chief Executive, L&T Semiconductor Technologies

Session: Inaugural Session – *The 2035 Roadmap: From Vision to Global Contender*
