

IIMBue 2026 – Frontier Technologies Reshaping India's Future

Bengaluru, India

L&T Semiconductor Technologies (LTSCT) participated in **IIMBue 2026**, where industry leaders, entrepreneurs, investors, and policymakers came together to discuss the transformative role of frontier technologies in shaping India's future.

A key highlight of LTSCT's participation was the panel discussion featuring **Dr. Sandeep Kumar, Chief Executive, L&T Semiconductor Technologies**, who shared insights on India's evolving semiconductor ecosystem and the country's growing focus on building world-class products through innovation, engineering excellence, and long-term investment in deeptech.

Highlights

Speaker: Dr. Sandeep Kumar, Chief Executive, L&T Semiconductor Technologies

Session: Frontier Technologies Reshaping India's Future
